UNITEforLIFE

A Special Event to Benefit Pregnancy Care Organizations

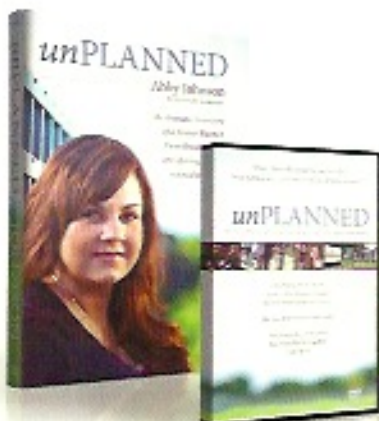

Live webcast
 with Abby Johnson

Abby joined Planned Parenthood as a college student because she wanted to help women in crisis.

It wasn't until she helped perform an abortion that she fully realized what she'd been a part of all those years.

This new documentary tells the dramatic story of Abby's eye-opening journey across the life line.

Come together on May 17 with pro-lifers across America in an unprecedented benefit for pregnancy care organizations that truly serve women and save lives.
